Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

**PETITION TO INVOKE THE COMMISSIONER'S SUPERVISORY AUTHORITY
UNDER 37 C.F.R. 1.181 AND WITHDRAW THE HOLDING OF ABANDONMENT**

The Applicant respectfully requests the Honorable Commissioner of Patents to invoke the Honorable Commissioner's supervisory authority under 37 C.F.R. 1.181 and withdraw the holding of abandonment in connection with the above-identified application in view of the facts and reasons set forth below.

Statement of Facts

1. On September 15, 2006, the US Patent Office mailed an Office Action to the Applicant's representative.

2. On March 28, 2007, the undersigned Applicant's representative conducted a status check corresponding to the above-identified application. While reviewing the application on the USPTO Private Patent Application Information Retrieval system, Applicant's representative noted that an Office Action was mailed on September 15, 2006. Applicant's representative did not find a copy of the Office Action dated September 15, 2006 in the file. Moreover, the undersigned checked the undersigned's docket records and did not find any record of the Office Action dated September 15, 2006 being docketed. Thus, the Applicant's Representative apparently never received the Office Action dated September 15, 2006 (See attached copies of the undersigned's Docket Records for the months of October 2006, November 2006, December 2006 and March 2007.)

REMARKS

The Applicant respectfully requests the Honorable Commissioner of Patents to invoke the Honorable Commissioner's supervisory authority under 37 C.F.R. 1.181 and withdraw the holding of abandonment issued in connection with the above-identified application in view of the reasons set forth below.

It was at the time of mailing of Office Action dated September 15, 2006 and still is the policy of Gauthier & Connors, to review all incoming mail and immediately docket all incoming correspondences from the US Patent Office.

The Applicant's Representatives have attached the docket records of the Applicant's Representatives for the months of October 2006, November 2006, December 2006, and March 2007. The months of October 2006, November 2006, December 2006, and March 2007 demonstrates any due dates relating to correspondences from the US Patent Office having a mail date from September 2006 that were received by the Applicant's Representatives.

As evidenced by the docket records of the Applicant's Representatives for the months of October 2006, November 2006, December 2006, and March 2007, the Applicant's Representatives did not receive the Office Action dated September 15, 2006. Moreover, the docket records of the Applicant's Representatives for the period of October 2006 only shows the six-month statutory response period for the previous Office Action dated April 3, 2006.

If the Office Action dated September 15, 2006, had been received by the Applicant's Representatives, the Office Action would have been docketed for a shortened statutory Response within three months (December 15, 2006) and a statutory Response within six months (March 15, 2007). The docket records for the period of December 2006

and the period of March 2007 clearly show no entries for an Office Action relating to the above-identified application.

If the Office Action dated September 15, 2006, had been received by the Applicant's Representatives but mis-docketed as a thirty days response, the Office Action would have been docketed for a Response within thirty days (October 15, 2006). The docket records for the period of October 2006 clearly show no entries for an Office Action relating to the above-identified application.

Lastly, if the Office Action dated September 15, 2006, had been received by the Applicant's Representatives but mis-docketed as a two month response, the Office Action would have been docketed for a Response within two months (November 15, 2006). The docket records for the period of November 2006 clearly show no entries for an Office Action relating to the above-identified application.

The undersigned has thoroughly reviewed the undersigned's law firm's paper and electronic files for the above-identified application and has found no evidence that Office Action dated September 15, 2006 was ever received.

It was the policy of the undersigned's law firm at the time of filing the above-identified application, and it is still the policy, that all incoming correspondences from the US Patent Office are given to the attorney named as the primary contact in the correspondence address. It is the responsibility of the attorney named as the primary contact in the correspondence address to process the correspondence and properly docket the correspondence on both the docket of the attorney *responsible* for that client and the docket of the attorney actually handling the matter. The policy of designating the attorney responsible for that client as the primary contact person was implemented to ensure that the attorney ultimately responsible to the client was aware of all the activities associated with

the client.

It was the policy of the undersigned's law firm at the time of the mailing of the Office Action, and still is the policy, to forward all Office Actions to the client with a cover letter explaining the Office Action and the suggested course of action going forward. After a thorough review of the Firm's paper file for the *above-identified* application and electronic records of the undersigned's law firm, the undersigned could not find any evidence that this letter was ever generated or forwarded to the Applicant.

The undersigned was, at the time of filing the *above-identified* application, and still is the attorney *responsible* for the client associated with the *above-identified* application. The undersigned does not recall receiving the Office Action dated September 15, 2006 or informing the Applicant of the Office Action dated September 15, 2006 and the need to respond to avoid abandonment of the Application.

In view of the evidence, it is clear that the undersigned never received the Office Action dated September 15, 2006. Moreover, since the undersigned did not receive the Office Action dated September 15, 2006, the undersigned did not have the opportunity to properly respond to the Office Action dated September 15, 2006. Therefore, the holding of the *above-identified* application as abandoned for failing to respond to Office Action dated September 15, 2006 is improper.

SUMMARY

The undersigned did not receive the Office Action dated September 15, 2006. Moreover, the undersigned's docket records clearly demonstrate that the Office Action dated September 15, 2006 was never received by the undersigned. Since the undersigned did not receive the Office Action dated September 15, 2006, the undersigned did not have the opportunity to properly respond to the Office Action dated September 15, 2006.

Thus, the Applicant should not be penalized due to failure of the US Postal Service to properly deliver the Office Action dated September 15, 2006 to the undersigned and the holding of abandonment for the above-identified application should be immediately withdrawn.

The Honorable Commissioner is respectfully encouraged to contact the undersigned to discuss the circumstances warranting this Petition.

Accordingly, in view of all the reasons set forth above and the attached evidence, the Honorable Commissioner is respectfully requested to invoke the Honorable Commissioner's supervisory authority under 37 C.F.R. 1.181 and withdraw the holding of abandonment in connection with the above-identified application.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Matthew E. Connors", is written over a horizontal line.
